Name: Kida

Age: 11

My Westhaven journey

Kida began her Westhaven journey as part of Truro Pathways. Kida spent a number of years with Pathways, receiving 1-1 provision.

In September 2021, Kida joined Chester Class as a permanent learner. This was her first full class placement since beginning at Pathways. Kida spent 2 years in Chester and is now in Cardiff as part of our KS3 cohort.

The WOW!

In September 2021, Kida struggled considerably with her mathematics and English. She struggled with her basic number bonds, reading and writing. In order to support Kida in 2021, she was provided either with a scribe or an adult to write her thoughts down for her to copy.

In September 2023, Kida is now one of Cardiff Class' "high flyers" in mathematics. She is able to add together numbers that are in their billions and millions independently. This has resulted from her love towards mathematics. She is also independently writing in all of her lessons, producing work that is able to be read by an adult, whilst not always being spelt correctly. She can also access multiplications, including the 6 times table!

Additionally, she has been recognised by various members of staff for her excellent effort and attitude towards learning, notably in DT and Forest School.
